## CALENDAR

John Chater

**FARMER'S TALE** Percy Schmeiser, a Saskatchewan farmer, in "The Future of Food."

### Watching What We Eat

"The Future of Food" is a documentary by Deborah Koons Garcia that explores the ramifications of genetically modified crops, the influence of industrialized farming and the backlash from both issues around the world. "The Future of Food" (above) is being shown today through Sept. 27 at the Film Forum, 209 West Houston Street (Varick Street), with daily screenings at 1, 2:50, 4:40, 6:30, 8:20 and 10:10.
